Estate Gazette New Look for Old Quebec Street

Westminster council has approved plans for a £500,000 revamp of Old Quebec Street W1. The street, which links the western end of Oxford Street to Seymour Street near Marble Arch, will be repaved and traffic restrictions will be imposed. The proposals are part of the Edgware Road action plan, which was adopted by the council in February last year. Transport for London, Great Portland Estates, The Portman Estate, the New West End Company and Thistle Hotels all provided funding for the plans. Work will start next month, with completion expected in August.
